

vasic-digital tmux — Open Issues Tracker

§11.4.93 SQLite-SSoT generated. Edit the DB via `workable-items add|close|...` — direct MD edits are obliterated by the next `workable-items sync db-to-md` invocation.

Items

Category A

A1. Tooling harness for round-trip testing needs golden corpus — OPEN

TMX-ID: TMX-001 **Type:** Task **Status:** Queued **Severity:** MEDIUM

Establish a deterministic golden fixture corpus that exercises the md-to-db and db-to-md round-trip with byte-identical equivalence per §11.4.93.

Category B

B1. Parser must handle backticks inside titles without confusion — OPEN

TMX-ID: TMX-002 **Type:** Bug **Status:** Queued **Severity:** HIGH

Titles containing backticked code references (e.g. `scripts/test_e2e.sh`) must parse intact and not be truncated by the heading status-hint extractor.
